Programme Objective

Present day competition in the market place can be met only by continuous improvement in Quality and reduction in the Cost. Opportunities for these improvements are within several problems affecting Productivity, Quality & Cost.

Systematic investigation of these problems and finding solutions are the proven approaches for getting the desired results. The focus of the Programme is to develop problem solving skills applicable in all sectors including textile and diamond processing industries To meet these needs, a kit of problem solving tools and techniques will be covered in this programme, which can help to solve 95% problems of the organization through Quality Circle. At the same time the trained employee will be able to implement the concept in the organization by imparting training to others. This will lead to development of people and their involvement in organizational growth.

Methodology

Learning through Interactive sessions, Syndicate exercise and Group activities.

Programme Outline

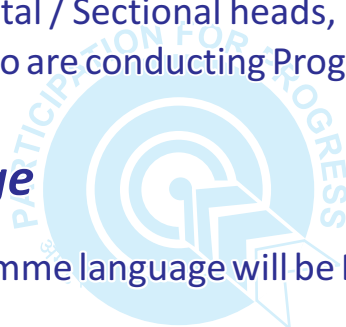

1. Concept and Implementation of Quality Concepts (Quality Circles, 5S, Kaizen, Lean QC).
2. Prioritization, Flow diagram, Mile Stone/Gannt Chart, Data Collection.
3. Stratification, Pareto diagram, Cause and Effect diagram, etc.
4. Syndicate exercise on Problem Solving Tools and Techniques.
5. Problem solving methodology.
6. Presentation skills & techniques.
7. Syndicate exercise on Presentations Skills and techniques.

Who Should Attend

Departmental / Sectional heads, Practicing QC Members, QC Leaders, QC Facilitators, Trainers who are conducting Programme on QCS.
