

Forthcoming Event

NATIONAL CONCLAVE ON RECENT ADVANCES IN CEMENT INDUSTRY

Theme: Role of Cement Industry in Environmental Protection

21st October, 2016 (Friday) at HICC, Hyderabad

Quality Circle Forum of India-Hyderabad Chapter (QCFI) is organizing one day **National Conclave on Recent advances in Cement Industry on 21st October, 2016 at HICC, Hyderabad** with the support of **Cement Manufacturing Association and NCCBM**.

This conclave will feature:

- Best practices case Studies on Quality and Productivity improvement.
- Success stories on Energy efficiency improvement
- Alternative Fuel and Raw materials
- Safety in Manufacturing and logistics.
- Environment Best practices in CO₂ emission reduction, water positive initiative, Waste disposal, emission control
- Sustainable mining and Biodiversity
- Renewable Energy and Waste heat recovery
- Newer Environment and mining regulations and Industry adoption

We are expecting around 500 professionals and practitioners from the Cement Industry across India and overseas to participate in this conference. The conference would be addressed by leading cement manufacturing experts, policy makers, technology providers and academicians from various parts of India and abroad.

All the stakeholders of the cement industry are requested to support this conference by way of participation/ sponsor of the event.
