## Workshop on “Training for Trainers”

8<sup>th</sup> to 12<sup>th</sup> August.2016

## OBJECTIVE OF THE WORKSHOP

Present day competition in the market place can be met only by continuous improvement in quality and reduction in the costs. Opportunities for these improvements exist in several problems affecting productivity, Quality and Cost. Systematic investigation of these problems and finding solutions are the proven approach for getting the desired results.. The focus of the program is to develop problem solving skills. To meet these needs, a kit of problem solving tools and techniques will be covered in this program which can help to solve almost 95% problems of the organization through Quality Circle. At the same time the trained employee will be able to implement the concept in the organization by imparting training to others.
