

SMS Poll - Steps

1. Chapter will share the election process with all the eligible voters through email and SMS on how to vote and elections dates on daily basis.

Contestants will be given numerical code starting from 11

For Example:

| SL No | Candidate Name | Candidate Code |
|-------|----------------|----------------|
| 1 | Candidate A | 11 |
| 2 | Candidate B | 12 |
| 3 | Candidate C | 13 |
| 4 | Candidate D | 14 |

2. A long code– (a 10 digit mobile no) is designated for each poll and we request all the eligible voters to vote by sending the SMS to the mobile no xxxxxxxxxxxx by typing the candidate code 11<space>12<space> 14 upto maximum of 12

3. As soon as the voter send the SMS, he/she will get a confirmation SMS saying **“Congratulations. Your Vote is accepted. Thank you for your valuable vote”**.

4. Vote will stand rejected in case if they try to vote using SMS more than once as the system will not accept multiple votes from single eligible Mobile no.

5. Votes from mobile nos which are not eligible (not registered in QCFI database) will be rejected automatically by the system.

6. All the received (polled votes) against each candidate will be stored on IMI Mobile secured systems.
