Theme: 1st TQM-India Summit 2023

"Breakthrough Quality Solutions – Unlocking Values"

The Summit theme focuses on Quantum Value additions, Innovations and Quality approach laying due stress on structured thought process. It targets to bring together best practices, solutions from across sectors from the best leaders / performers / thinkers / experts!

Breakthrough quantum value-additions become a way of life when quality is ingrained in each and every activity of human engagement. The aspirations soar higher on every achievement and redefine new benchmarks. The growth is driven exponentially leveraging creativity and innovation across entire spectrum of industries and institutions! The leaders & managers have increasingly synergised their Inbuilt quality-orientation with structured thought process of **Plan - Do - Check - Act (PDCA)** through various quality models/systems and are achieving quantum growth in all spheres of human engagement! We have witnessed phenomenal pace of improvement in recent years enabled by artificial intelligence etc., across all value adding entities!

The TQM-India Summit seeks to provide a pioneer National Platform to share such breakthrough innovations, best practices, success stories, Case studies, Strategies /Models from across the sectors for larger good for the country to learn and replicate from each other.

The Sub themes will be focusing on Innovations and best practices of sector specific solutions from Engineering, Automobiles, Cements, FMCG, Power, Iron and Steel, Metal & Mining, Oil and Gas, Education, Hospitals, PSUs, etc. from entire functional domains of HR, EHS, Logistics, Operations, Maintenance, Supply Chain, Commercial, Finance, Digitalization and so on .
