OUR EXPECTATIONS FROM THE PARTICIPATING TEAMS

All participating teams are requested to send their case study presentation step wise as per the suggested flow in this brochure.

The HEALTH, SAFETY & ENVIRONMENT fraternity/ Learning community to present their stories of real life attainments in the form of a case study. It does not matter to us whether attainment is big or small. A small step taken to develop an excellent practice is well enough. Our expectations, however, remain towards achievements "Beyond Excellence".

The Case studies may include any unique practice of creativity/innovation/system/indigenous practice that elevates or escalates people excellence and business excellence and boosts up morale and motivates people to excel. We are keeping the windows well open. The process of mapping and the tangible improvement can be brought out.
